- Worked on **AEM** (Adobe Experience Manager) building blocks including templates, components, dialogs, widgets and bundles.
- Developed custom **AEM workflows** and other **Dynamic/Static** web content management components.
- Extensively used **AEM** tagging features in developing components.
- Integrated the **AEM** components with AngularJS.
- Worked on dispatcher cache in **AEM** working on auto login scenario.
- Used Adobe Dynamic Tag Management(**DTM**) for integration of AEM with Adobe Analytics and Adobe Target.
- Worked on data migration in **AEM**.
- Experienced on creation dialogs for both Touch/Classic in **AEM**.
- Used **AEM** developer tools for **exporting** and **importing** content to and from **AEM** repository.
- Communicated to different internal servers, database from **AEM**, using front end(**AJAX**).
- **Ajax** requests were used to get the data from the **REST** service.
- Used **AngularJS** in the app for an efficient MVC implementation.
- Used **Directives** for the DOM manipulations.
- Used **Filters** for formatting decimal places and pagination.
- Used **Controllers** for implementing business logic into the scope.
- Used **PubSystem** implementation involving the usage of broadcast () and emit () methods for sending the messages across different controllers.
- Utilized the **Dependency Injection** mechanism for simpler way of managing the controllers and scopes.
- Wrote application level code to perform client side validation using JQUERY and JavaScript.
- Used advanced level of JQUERY, AJAX, JavaScript, Backbone, Bootstrap, CSS and pure CSS layouts.
